ABOUT US

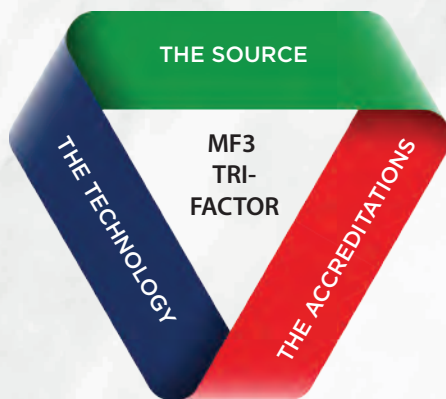

MFIII began its proud history as MF3 of Switzerland, the brand that carries pioneering Softgels supplements made from animal and plant placenta extracts. Initially developed under LABDOM Suisse, MF3 of Switzerland's revolutionary PE and VP Softgels Advanced Formula supplements became the forerunner of placenta supplements in the market and captured worldwide fans for their superior quality and

proven results. MF3 of Switzerland continued to release exciting products until its operations and the IP rights of its supplements and premium aesthetic skincare range were acquired by Nexgen Biopharma Limited, a private entity based in Hong Kong. With a new brand identity, MF3 continues to deliver revolutionary high performing products to meet consumer demands and needs worldwide.

MF3 TRI-FACTOR

Unraveling the secrets to perfection

MF3 products share the sheer perfection of the brand's three peerless and distinct attributes, known as the exclusive MF3 Tri-Factor, that are diligently upheld to guarantee the highest levels of quality and safety for worldwide consumers.

MF3 Tri-Factor:
The Core of our Excellence

FACTOR 1: TECHNOLOGY

Cold Pro Proteolytic Enzyme Technology

MF3 uses a proprietary cell isolation and extraction technology to retain the highest degree of cellular bioactivity for better potency.

FACTOR 2: SOURCE

European State-certified Closed-colony*

**of Sheep and Rabbits raised for more than 40 generations*

The procured animals are bred specifically for medical purposes. Every batch of animals in the closed colony is raised for at least 40 generations since 1973, surpassing the requirements of global regulatory bodies such as WHO and USA-FDA.

FACTOR 3: ACCREDITATION

Over 60 Certificates from Authorities Worldwide

The global recognition shows the significant level of commitment that MF3 has in assuring high quality and safety in all products.

CAVIAR DNA DAY SERUM *Step 1 - Hydrate*

Intense Hydrating Caviar Complex

Caviar, the fine jewel of skin beauty, is the hydrating secret in MF3's most original creation. Specially enriched with the highest concentration of protein-rich Caviar DNA extract, this intense hydrating serum instantly creates a highly protective film on your delicate skin surface, to deliver continuous 10-hour hydration action, nourishing and revitalizing your skin into plumped, silken smoothness. Used in duo as part of a daily beauty ritual with the Caviar DNA Night Serum, this serum rigorously enhances your skin's natural moisture-retaining powers, and provides pink multi-light reflective pigments to create an immediate pink porcelain reflect on your skin complexion.

MELASMA DNA CORRECTOR *Step 2 - Correct*

Targeted Roll-On Spot Corrector

Melasma DNA Corrector is a high-precision, roll-on-concentrate applicator for visible dark spot reduction. This highly concentrated corrector provides a unique, deep-down action on the two origins of dark spots and aging pigments: melanin synthesis and lipofuscin formation. With time, dark spots are visibly diminished, erasing all the signs of aging to reveal a fascinating, translucent complexion.

CAVIAR DNA NIGHT SERUM *Step 3 - Renew*

Overnight Cell Renewal Accelerator

One of the alluring trios of MF3's skin revitalisation program, Caviar DNA Night Serum is conceived from the exceptional age-defying and renewing powers of protein-rich Caviar. With the luscious supply of LB complex, a super accelerator of epidermal cell renewal, the residue of sun-induced melanin from your day's activities is eliminated from the skin surface over night. Soft and supple, the skin is repaired, reinvigorated and renewed by dawn. Experience the true definition of a full night of beauty sleep.

HAIR & SCALP

INTENSIVE HAIR TREATMENT

HFR EXTRACT

Hair Follicle Regenerator Extract – the solution to hair loss!

A proprietary blend of hair growth factors derived from stem cells, HFR Extract promotes tissue repair, cell growth, and regeneration of wounds, in addition to helping develop hair follicles and generate hair growth. Contains 6 different hair growth factors (PDGF, VEGF, FGF, IGF, EGF, and TGF- β), each adding its own unique benefits to the extract.

MICRONED STAMPER

24k gold needle that stimulates skin cells for effective hair restoration.

The MicroNed Stamper works by making micro punctures in the scalp, instigating the inflammation-proliferation-maturation cycle and prompting the skin to stimulate collagen production. It allows specific targeting of the scalp area, and is safer to use compared to similar treatments, with less risk of damaging surrounding hair follicles.

In collaboration with  EW BIOMEDICAL

! IMPORTANT: MicroNed Stamper should only be performed on very clean dry scalp and always sterilize the tool before use; failure to do so can lead to infection and other such issues. Do not share the device with other people to avoid the transfer of blood-borne disease.

After using MF3 PE Softgels AF for only two weeks, the freckles on my face had obviously faded and my skin was more lustrous. After three weeks of eating the softgels, my skin was brighter and smoother. I was so surprised. I will continue to use it and introduce it to my friends.

Toh Mei Lee, Malaysia
PE Softgels AF user

My face used to have lots of pimples which caused my skin to be very rough with big pores. As a result, my skin complexion was dull and looks very tired. I have taken a few types of collagen and placenta products, but it doesn't work at all and costs me lots of money. A year ago, my beautician recommended that I consume MF3 VP Softgel to get better results for my skin. So, I have decided to take four months in a row, and I have noticed that my skin has become more delicate and smooth. Not only that, I realised my face had been lifted and tightened with a more bright complexion. My beautician suggested I take MF3 PE Softgel on an alternate month. Many people tell me that I look so much younger than my actual age. I feel more confident in myself, and I will continue to support MF3 products. Thanks to MF3 for giving me back my youthful skin and confidence!
